MAYER'S

Vigorous True-Strain Strawberry Plants

Friends and Customers :

To state the facts truthful and honest, on account of a very dry season here this year it has been impossible to grow as large a crop of strawberry plants as in former years. On this account I mail you this folder only, and truthfully soliciting your 1919 valued order for **Mayer's Vigorous True-Strain Stock**. Wishing again to thank my thousands of friends for their confidence in me, and assuring my fullest interest to all—I am always

All varieties are carefully separated when more than one variety is ordered. Digging begins in March and continues to about May 10th.
